

QUICK ALERT

Why Go Out in the Rain or Cold? Check Your Oil In The Cab

LEVEL TEMPERATURE

Don't go out in the cold or wet weather just to check your oil level. Protect yourself, your equipment and your business from the safety and comfort of the cab.

IntelliStick Quick Alert - alerts you to low oil level and reports oil temperature continually, no need to wait for your next pit-stop or even lift the hood.

IntelliStick QUICK ALERT oil level monitor can save you from a serious breakdown, protect your business, and keep your truck, fleet or HD equipment on the job. The QUICK ALERT can communicate with your PDA, smartphone or laptop for data collection and oil temperature tracking up to 30 days at a time.

Features & Benefits

- Advanced Analyzer - 30-day memory
- Dashmount Gauge - Low Oil Alert & Temperature
- Dipstick Probe
- Continuously monitors oil temperature & level
- Alerts low oil condition
- Bluetooth (single vehicle or fleet) OR
